

Sacramento State CalGeo Sponsorship Proposal

2022-2023

Message to our Supporters

Dear Sacramento State CalGeo Supporter,

Thank you for your interest in supporting California State University, Sacramento. The student chapter is looking forward to working with our supporters as we transition back to in-person format. Our success could not be possible without the help of our gracious industry supporters. This year we aim to use a hybrid zoom and in-person format throughout the school year to maximize our efforts to promote geotechnical engineering through:

- Field Trips & Lab Tours
- GeoWall Project Team
- Industry Presentations
- Networking Nights

No matter the type of continued support, we are grateful to our industry professionals for providing guidance to our members as they transition into the geotechnical engineering field. Within the following, you will find all the opportunities that we provide to our members. We look forward to a promising year and working with all of supporters.

Thank you from all of our members,

Bryan Docto
President
bdocto@csus.edu

Christian Raganit
Vice President
craganit@csus.edu

About Us

WHO WE ARE

Sacramento State's CalGeo student chapter of the California Geotechnical Engineering Association (CalGeo) is a nonprofit, student-run organization that strives to provide accessible resources to its members and develop strong connections within the Geo-professional industry.

WHAT WE DO

As one of only seven CalGeo student chapters in California, we host professionals in the industry to discuss technical Geotechnical concepts. Alongside arrange accessible opportunities of professional development workshops and networking events.

STUDENT INVOLVEMENT

Student participation is pivotal in taking the next step in their professional career. Our goal is to provide an inclusive environment for all our members. With various professional events, we love to organize social getaways to relieve the stress of being a student.

GEO WALL

A student-run competitive project team that designs and builds a small-scale mechanically stabilized Earth (MSE) retaining system. The objective is to use the least amount of kraft paper and minimum reinforcement to endure soil and design load. Annual Mid-Pacific competitions are hosted by the American Society of Civil Engineers (ASCE) against other universities.

Our Future

As we continue to grow as a student chapter, the previous academic school year proved that we were capable of tackling the challenges of taking a student organization from the ground and bringing it back up. New challenges are bound to arise as we transition to the 2022-2023 school year and we hope to expand our network and provide more opportunities for our members.

CalGeo California State University, Sacramento will strive to continue holding

- Hybrid technical presentations
- Office and lab tours
- Hybrid Info Sessions
- Resume and career workshops.

As well as being in attendance for

- Emerging professional networking events
- Regional and Annual CalGeo Conferences
- GeoWall regional competitions
- and more!

We aim to provide innovative ways for Sac State CalGeo members to network with each other and the industry. To support student success in Sac State CalGeo, we kindly request support from donors and sponsors such as you and/or your firm. All sponsorships go directly into funding enriching events for our students and industry partners for years to come.

- Sac state GeoWall Annual T-Shirt and Pint Glass
- Logo and Sponsorship Recognition on Sac State CalGeo Website
- Sac State CalGeo Resume Booklet at End of January
- Personal Letter of Thanks from GeoWall
